Computer – A Machine

In The Chapter..

◆ Machines

◆ How machines work

Hello children, look at the picture given below. Can you circle the things that are made by man?

Things that are made by man are called **man-made things**. For example, a television, a car, a book, a pencil, a window. Things that are not man-made are called **natural things**. For example, a bird, a tree, an apple, a banana, a flower.

MACHINES

Look at the pictures given below. All of them are machines.

Fridge

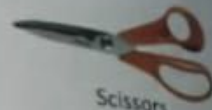

Sewing Machine

Camera

Aeroplane

Scissors

Machines are man-made things. Machines help us in the following ways:

- ◆ Machines work very fast.
- ◆ Machines make our work easy.
- ◆ Machines help us to save time.

Computer System

A computer is also a machine. It is useful to us in many ways. It also makes our work comfortable.

There are many kinds of machines made by man.

Some machines help us to move from one place to another. For example, bus and rickshaw.

Rickshaw

Bus

Some machines make our work comfortable. For example, calculator and sewing machine.

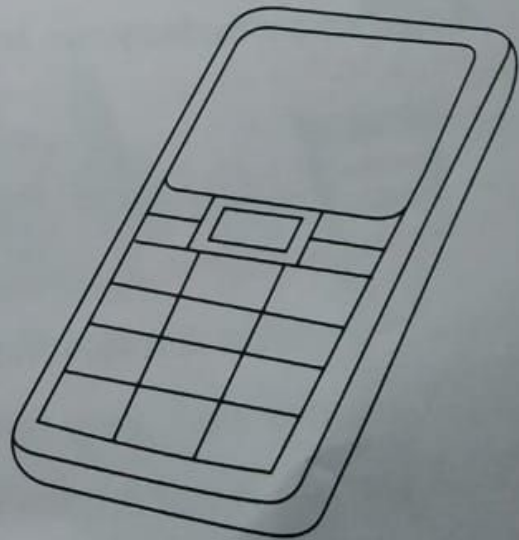

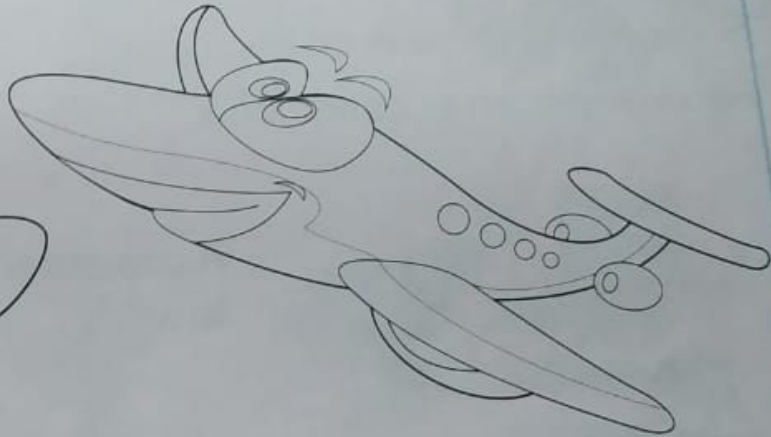

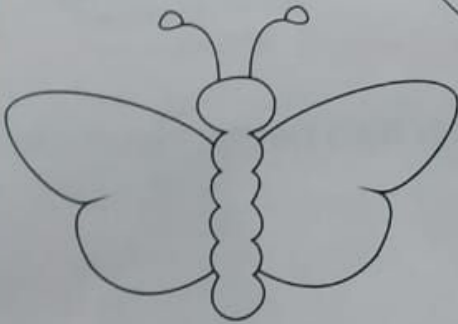

Calculator

Sewing machine

Check Yourself

Colour the things that are made by man.

HOW MACHINES WORK

Do you know how machines work?
Some machines work with man power.
For example, a bicycle.

Bicycle

Some machines work on fuel.
For example, a car.

Car

Some machines work on electricity.
For example, an air conditioner.

Air Conditioner

A computer also needs electricity
to work.

MEMORISE

- Things that are made by man are called man-made things.

Exercises

A. Write **T** for true statement and **F** for false statement.

1. A television is a machine.
2. Machines work very fast.
3. A camera is not a man-made thing.
4. A computer works on fuel.
